

DOLPHIN ENERGY CLUB

August 1992 marks the first anniversary of the creation of the Dolphin Energy Club (DEC). First introduced as an integral part of the *GUIDELINES*® and *LIFELINE*® graduate residential programs, response was so enthusiastic that the Club was opened to all who desired to explore the possibilities of this special healing energy. Since that time, DEC has grown from seventeen to 220—all eager to apply the abilities developed with the DEC training tape in service to self and others. To date these members have answered forty-two requests for assistance.

With only the first name of those requesting DEC energy as a target, some notable “hits” have occurred. One example: a sender reported, “During physical body map work I got a visual of a man in a wheelchair. Emotional body map felt sluggish. During mental body map I got an ‘alert’ sensation at his legs. Also, ‘stroke’ came to mind.” This individual mistrusted his perceptions because they seemed sparse and did not fit the categories on the data collection form. However, the receiver was a young man confined to a wheelchair as a result of a cycling accident. He is classified as a partial paraplegic and his report dovetails interestingly with that of the sender. He writes: “During the period [when he was the focus of DEC energy] I discovered that I could now isolate two muscles in my left foot that previously I was not aware of.” In addition, “Although I was not (consciously) aware of DEC help ... I was much more optimistic than usual during that week.” Yet another sender saw a “foundation problem” with this recipient and “focused on the legs, feet, and circulation,” and said, in reference to the emotional body map, “Heart gray—focused there. Blue color returned.” The majority of DEC members have also described the development of a beautiful, intuitive flow while interacting with their dolphin assistant(s).

Plans are under way to evaluate the data accumulated thus far and to observe any correlations that emerge from the information received from both DEC members and DEC healing energy recipients.
